

Idea Selection Checklist

Criterion 1: Relevance	Criterion 2: Potential Impact	Criterion 3: Existing Delivery Channels/Structures	Criterion 4: Cultural Acceptability	Criterion 5: Innovation	Criterion 6: Potential for Sustainability	Criterion 7: GESI	Criterion 8: Potential Feasibility
<i>How many key barriers does it address? (See Barrier Mapping Sheets)</i>	<i>How impactful have similar interventions proven to be in the past?</i>	<i>Are there reliable/feasible delivery channels available to deliver this intervention?</i>	<i>Is this intervention appropriate given the cultural norms and values in Nepal?</i>	<i>How innovative, new, or exciting is this idea?</i>	<i>Would it be possible to sustainably implement this intervention at scale beyond a pilot test?</i>	<i>Does it address Gender Equity and Social Inclusion?</i>	<i>Is it possible to implement this intervention within the B-A project (timeframe, budget, resources, capacity)?</i>
0 = Addresses 0-1 barriers 1 = Addresses 2-4 barriers 2 = Addresses 5 or more barriers	0 = No impact/no evidence base for similar 1 = Evidence of impact in other contexts 2 = Evidence of impact in CEFM/Nepal	0 = No delivery channels /need to create channel 1 = Existing delivery channels in some districts 2=Existing delivery channels nationwide (or in most districts)	0 = Not cohesive with cultural norms 1 = Culturally relevant/appropriate	0 = Not innovative 1 = Has been tried before but not in this context 2 = This idea sounds new or exciting!	0 = Not cost-effective at scale AND lacks political will to implement 1= maybe cost-effective 2 = Cost-effective at scale AND likely to have political support	0= Doesnot adress either 1= Addresses either Gender Equity or Social Inclusion 2= Addresses Gender Equity and Social Inclusion	0 = Not within scope 1 = We could maybe do this 2 = We could definitely do this!
