

How to Use your Mosquito Net

1 Before you use the net for the first time, hang it outside under the shade for 24 hours to prevent skin irritation.

2

- Hang the net above the sleeping space.
- Tuck the net under the mattress or mat to prevent mosquitoes from getting inside.

Sleep under a mosquito net every night, all year round

rainy season

hot season

cold season

3 Everyone is at risk of getting malaria. Sleep under a mosquito net **every night, every season, all year round.**

4 Fold or tie the net every morning to protect it from damage.
