RABIES is a very serious sickness.

Both animals and people can get rabies.

Almost everyone who gets rabies gets it from the bite of a dog that has rabies.

TO STOP DOG BITES:

Do not disturb dogs — especially when they are sleeping, eating, or with their young.

Take your time — when passing or entering where a dog lives.

If you see a dog that is acting strange or looks sick — stay away and call an animal health worker, community health worker, or 117 for advice.

IF A DOG BITES YOU:

1. Wash the bite right away with soap and water 20 times.

2. Then go quickly to the hospital.

STOPPING DOG BITES HELPS STOP RABIES.
